

# AGRICULTURAL ECONOMICS (B.S.AG.ECON.)

The agricultural economics major has two emphases designed to prepare students for careers in the agricultural economics profession. The applied economics emphasis provides students with the theory behind decisions concerning agricultural production, marketing, resource use, pricing, and policy. The agribusiness emphasis provides students with training related to management, finance, and marketing in the agribusiness sector. Both of these emphases prepare students to pursue advanced degrees if they choose.

Required course work includes the university requirements (see regulation J-3 (<https://catalog.uidaho.edu/general-requirements-academic-procedures/j-general-requirements-baccalaureate-degrees/#j3>)) and:
