

# BIOTECHNOLOGY AND PLANT GENOMICS MINOR

---

| Code   | Title                                   | Hours        |
|--|---|--------------|
| BIOL 3800                                    | Biochemistry I                          | 4            |
| PLSC 2070                                    | Introduction to Biotechnology           | 3            |
| PLSC 4880                                    | Genetic Engineering                     | 3            |
| One of the following (3 credits):            |   | 3            |
| GENE 3140                                    | General Genetics                        |              |
| BIOL 3100                                    | Genetics                                |              |
| Two of the following courses: (6-7 credits): |   | 6-7          |
| BIOL 4440                                    | Genomics                                |              |
| BIOL 4870                                    | Cellular and Molecular Basis of Disease |              |
| PLSC 4400                                    | Advanced Laboratory Techniques          |              |
| PLSC 4860                                    | Plant Biochemistry                      |              |
| PLSC 4460                                    | Plant Breeding                          |              |
| <b>Total Hours</b>                           |   | <b>19-20</b> |

**Courses to total 19-20 credits for this minor**
