Education and general education.

It is designed for students who want to become teachers in Special Degree and recommendation for K-12 certification in special education. The 5th Year Special Education Program offers a unique program culminating in an undergraduate degree and recommendation for certification in either elementary or secondary education plus a Master’s Degree and recommendation for K-12 certification in special education. It is designed for students who want to become teachers in Special Education and general education.

**Graduate Education/Curriculum and Instruction**

The program provides advanced professional and foundational courses that support graduate study in the College of Education, Health and Human Sciences. Graduate programs in curriculum and instruction with an emphasis in teacher education include:

1. Master of Education in curriculum and instruction; and
2. doctoral degree programs (either Doctor of Education or Doctor of Philosophy) with emphases in curriculum and instruction.

**Graduate Education/Special Education**

The program provides advanced professional and foundational courses that support graduate study in the College of Education, Health and Human Sciences. Graduate programs in special education include:

1. Master of Education in special education; and
2. doctoral degree programs (either Doctor of Education or Doctor of Philosophy) with emphases in special education.

Persons interested in doctoral work in the College of Education, Health and Human Sciences should apply to the program through the College of Graduate Studies. Admission requirements for the doctoral program include:

1. a minimum grade-point average of 3.0 in undergraduate preparation,
2. a minimum grade-point average of 3.50 at the master’s degree level or its equivalent,
3. the completion of the Graduate Record Examinations (GRE), and
4. letters of recommendation. Exceptions to the criteria may be made when documented by the Graduate Review Committee.

The professional degree majors in Career and Technical Education provide the opportunity and relevant skills, knowledge, and dispositions to enable teachers, administrators, and business and industry personnel to work effectively with today’s organizations, youth, and adults. Learners benefit from the realistic relationships between course experiences and work required by educational institutions, business, industry, agriculture, and family life.

Preservice teaching degree majors are offered in: Career and Technical Education (CTE) with options in Business and Marketing Education, Engineering & Technology Education, and Occupational Education in the College of Education, Health and Human Sciences. (See Admission to Teacher Education Programs [https://catalog.uidaho.edu/colleges-related-units/education-health-human-sciences].)

For all undergraduate teaching degrees listed below the student should consult an advisor concerning state requirements for the career-technical education certificate.

**Business and Marketing Education**

The business and marketing education option is for students interested in teaching business, marketing and business technology subjects at the high school or post-secondary level. Completers of this option qualify for an Idaho secondary teaching certificate (6-12) in business technology education, marketing technology education, and usually economics (based on selected electives).
Career-technical Education
Career-technical education option is designed primarily for teachers in area career-technical schools and secondary trade and industry programs who do not hold degrees. It does not qualify one for teaching in a public K-12 system unless a person also holds a secondary endorsement or an occupational specialist certificate.

Career-technical Certification
In collaboration with the Idaho State Division of career-technical Education, sequential inservice undergraduate career-technical education degree courses, as well as selected graduate career-technical courses, are offered each semester at area professional/technical schools located at Coeur d’Alene, Lewiston, Boise, and Twin Falls.

Technology Education
The Technology Education option is designed for students interested in teaching technical subjects related to construction technology, communications technology, electronics, engineering, manufacturing, production and other technology related subjects. It is a 2+2 program, meaning graduates from technical and community colleges with an associates degree in a technical/science area can be admitted and complete the program in two full years. Graduates of this option qualify for an Idaho secondary teaching certificate in technology education (grades 6-12).

Majors
• Early Childhood Development and Education (B.S.Erly.Chldhd.Dev.Ed.) Coursework will prepare students to be recommended for Idaho Early Childhood Education/Early Childhood Special Education (ECE/ECSE) Blended Teacher Certification. Students will be certified to teach children birth through grade three.

For information on an undergraduate major in Early Childhood Development and Education, see the School of Family and Consumer Sciences (https://catalog.uidaho.edu/colleges-related-units/agricultural-life-sciences/family-consumer-sciences) section.

• Elementary Education (B.S.Ed.) (https://catalog.uidaho.edu/colleges-related-units/education-health-human-sciences/curriculum-instruction/elementary-education-bsed)
