The Engineering Management Program at University of Idaho is designed
for engineering professionals moving into technical management
roles. The Program is multidisciplinary, supported by faculty in the
colleges of engineering, business, and science. Students will explore
the analytical, technical, and human resource aspects of managing in
a technical environment. Students will have the opportunity to expand
their knowledge in their chosen field of expertise. Since the vast majority
of engineers assume management roles sometime during their career,
this degree program is typically pursued on a part-time basis by working
engineers. Classes are offered by resident and adjunct faculty in Idaho
Falls, Boise, and Moscow. All courses required for the program are
available for distance learners through the College of Engineering’s
Engineering Outreach Program eo.uidaho.edu/.

The College of Engineering offers a M.Engr. (non-thesis) degree in
Engineering Management. Admission to the program is based on: ability
to complete graduate-level work evidenced by undergraduate transcripts;
a B.S. in Engineering from an ABET/EAC accredited program, TOEFL
score higher than 550 for International students, at least 2 years of
engineering work experience beyond B.S. degree or currently employed as
an engineer, and three letters of recommendation. One of the three letters
of recommendation must be from a current or former employer.

Engineering Management Graduate
Program

Candidates must fulfill the requirements of the College of Graduate
Studies and of the College of Engineering. See the College of Graduate
Studies (https://catalog.uidaho.edu/colleges-related-units/graduate-
studies) section for the general requirements applicable to each degree.
