BCB 509 Evolutionary Biology for non-Life Scientists (3 credits)
This course is offered by Michigan State University as part of the National Science Foundation BEACON Science and Technology Center on ‘evolution in action’. Life-scientists in general, and evolutionary biologists in particular, have a particular way of looking at the world that may seem unfamiliar or unusual to non-biologists. In this class, students learn to ‘think’ like an evolutionary biologist. This course builds a working understanding of biological evolution, enabling effective collaboration with evolutionary biologists. (Fall only).
