

EARLY CHILDHOOD DEVELOPMENT AND EDUCATION (ECDE)

ECDE 2100 Introduction to Early Childhood Education (3 credits)

This course provides an overview of the complexity of working with young children and their families. The topics include introduction to the history of early childhood education, supportive agencies, roles of professionals, contexts of typical and atypical child and family development, and curricular models. This course requires 20 hours of service learning. Typically Offered: Fall.

ECDE 2340 Infancy and Early Childhood (3 credits)

Influences on development before birth through the preschool years; factors that determine physical, emotional, cognitive, social, and creative development. Typically Offered: Spring.

ECDE 2350 Principles and Methods of Child Observation (3 credits)

Development of skills necessary to observe, record, and interpret child behavior; observations to be arranged. Typically Offered: Fall.

Prereqs: ECDE 2340 with a grade of C or better

ECDE 2540 Middle Childhood Development (3 credits)

Emotional, social, cognitive, and physical development of the school-age child through pre-adolescence in the context of family, school, peer group, and community. Typically Offered: Fall.

Prereqs: HDFS 1050 or ECDE 2340 or Permission

ECDE 3300 Positive Behavior Intervention and Support (3 credits)

Drawing on developmental theories and behavioral principles, this course discusses evidence-based strategies for strengthening desirable behaviors and reducing challenging behaviors in students. Both theoretical foundations and practical techniques of Positive Behavior Intervention and Support (PBIS) will be addressed. Typically Offered: Fall.

Prereqs: HDFS 1050 or ECDE 2100 or PSYC 1101

ECDE 3330 Developmental Curriculum for Young Children (4 credits)

Principles and practices of a developmentally based curriculum, assessment, intervention, and evaluation. Three hours of lecture and two hours of lab per week. Typically Offered: Spring.

Prereqs: ECDE 2350 with a grade of C or better or permission

ECDE 3400 Parent-Child Relationships in Family and Community (3 credits)

May be taken by nonmajors. Dynamics of parent-child interactions and models for parent education programs in community and school settings. Typically Offered: Fall.

Prereqs: ECDE 2340 or HDFS 3340

ECDE 4010 Preschool Internship Seminar (2 credits)

A review of the professional responsibilities and commitments, and the interactions and partnerships that support children and families' healthy development, learning, and well-being. Typically Offered: Fall and Spring.

Coreqs: ECDE 4970

ECDE 4040 (s) Special Topics (1-16 credits, max 99, max arranged)

ECDE 4100 Advanced Infant and Toddler Development and Learning (3 credits)

Joint-listed with ECDE 5100

This course provides an in-depth study of the child from conception to three years of age. The topics may include an overview of typical and atypical development with various theoretical perspectives in each of the developmental domains, quality caregiving practices, and supported services and/or programs. Additional assignments required for graduate credit. Typically Offered: Spring (Odd Years).

ECDE 4200 Inclusive Early Childhood Education (3 credits)

Joint-listed with ECDE 5200

This course examines the needs, opportunities, barriers, and resources to inclusive early childhood education. The relevant laws, policies, research-based practices, and models will be studied to understand the context for systems change. Additional assignments required for graduate credit. Typically Offered: Spring (Even Years).

ECDE 4300 Cognitive and Motivation in Human Learning (3 credits)

Joint-listed with ECDE 5300

This course discusses the research and theory in the psychology of learning from cognitive, developmental, behavioral, and motivation perspectives. The course's contents are designed to provide students with historical background, research evidence, and real-life implementation of theories in various contexts, thus balancing theoretical and practical perspectives. Up-to-date, supplementary research articles will be provided to encourage students to think critically about those theories and to reflect on theories' implications in their own learning environments. Additional work required for graduate credit. Typically Offered: Unknown.

Prereqs: ECDE 2100 or ECDE 2340

ECDE 4350 Feeding Young Children in Group Settings (1 credit)

This course increases awareness concerning the best practices in feeding young children. Practical, hands-on activities and assignments are included in the course through videotapes and the course website (www.aee.uidaho.edu/feeding). Typically Offered: Spring.

ECDE 4360 Theories of Child and Family Development (3 credits)

Identification, interpretation, and evaluation of individual and family developmental theories. Typically Offered: Spring.

Prereqs: HDFS 1050 or ECDE 2340 and Junior standing or Permission

ECDE 4800 Assessment: Early Childhood/SPED (3 credits)

The assessment process, link between assessment, curriculum planning, and IEP/IFSP development, cultural responsiveness in assessment, legal issues and family partnerships. Practical experience using strategies and tools for screening and assessing development of infants and children birth through age 8, including typical and atypical development. Recommended Preparation: ECDE 2340 and ECDE 3330 Typically Offered: Fall.

Prereqs: C or better in ECDE 2340, ECDE 2350, and EDSP 3000

ECDE 4810 Early Childhood SPED Curriculum (3 credits)

Overview of typical and atypical infant and child development; instructional strategies for working with infants, toddlers and young children through third grade, linking assessment, curriculum and IEP and IFSP development, designing instructional programming for natural settings and formal settings; involving families, collaboration among professionals, working with volunteers and paraprofessionals. Recommended Preparation: ECDE 2340 and ECDE 3330. Typically Offered: Spring.

Prereqs: C or better in ECDE 2340, EDSP 3000, and EDCI 3020

ECDE 4900 Infant & Toddler SPED Internship (1-7 credits)

Direct practical experience in settings serving typically and atypically developing infants: ages birth to 35 months. Demonstration of screening, assessment, development of IFSP, programming in natural environments, working closely with parents to increase their roles as partners and collaboration among service providers. Typically Offered: Spring (Odd Years).

Prereqs: ECDE 4800 and ECDE 4810

ECDE 4970 INTERN: Preschool (1-16 credits)

Credit arranged. Supervised applied experience in child development and family relations. The field experience offers opportunity for students to learn about working in settings for children and families. Typically Offered: Fall and Spring.

Prereqs: C or better in ECDE 2340, ECDE 2350, ECDE 3330, and Permission

ECDE 4980 (s) Internship (1-16 credits)

ECDE 4990 (s) Directed Study (1-16 credits, max arranged)

Graded Pass/Fail.

ECDE 5020 (s) Directed Study (1-16 credits, max 99)

Credit arranged

ECDE 5040 (s) Special Topics (1-16 credits, max 99)

Credit arranged

ECDE 5100 Advanced Infant and Toddler Development and Learning (3 credits)

Joint-listed with ECDE 4100

This course provides an in-depth study of the child from conception to three years of age. The topics may include an overview of typical and atypical development with various theoretical perspectives in each of the developmental domains, quality caregiving practices, and supported services and/or programs. Additional assignments required for graduate credit. Typically Offered: Spring (Odd Years).

ECDE 5200 Inclusive Early Childhood Education (3 credits)

Joint-listed with ECDE 4200

This course examines the needs, opportunities, barriers, and resources to inclusive early childhood education. The relevant laws, policies, research-based practices, and models will be studied to understand the context for systems change. Additional assignments required for graduate credit. Typically Offered: Spring (Even Years).

ECDE 5300 Cognitive and Motivation in Human Learning (3 credits)

Joint-listed with ECDE 4300

This course discusses the research and theory in the psychology of learning from cognitive, developmental, behavioral, and motivation perspectives. The course's contents are designed to provide students with historical background, research evidence, and real-life implementation of theories in various contexts, thus balancing theoretical and practical perspectives. Up-to-date, supplementary research articles will be provided to encourage students to think critically about those theories and to reflect on theories' implications in their own learning environments. Additional work required for graduate credit. Typically Offered: Unknown.

ECDE 5400 Parent-Child Relationships (3 credits)

Open to nonmajors. The developing family; patterns of child rearing. Typically Offered: Spring.

Prereqs: ECDE 2340 or HDFS 3340, HDFS 4400, and 6 credits in psychology and/or sociology or Equivalent
