INTERDISCIPLINARY STUDIES (INTR)

INTR 101 (s) Focus on Success (1-3 credits, max 6)
Develop strategies to help you meet the demands of college-level course work. Includes goal setting, study skills, learning strategies, time management, effective communication skills. This course will introduce you to University requirements and resources, and help you integrate into the academic and social environment at the UI.

INTR 140 Academic Engagement (1 credit)
This course for new first-year and transfer honors students introduces students to the Honors Program community and prepares them for the academic expectations of the program. This course is required and provides new students with an opportunity to think about their expectations and the goals surrounding their college education and introduces them to academic and co-curricular resources available at the university. Typically Offered: Fall.

INTR 200 (s) Seminar (1 credit)
Credit arranged

INTR 201 Major/Career Exploration and Decision Making (1 credit)
Students are taken through the career decision-making process. Through career assessments, occupation & industry research, and informational interviews, students will learn about themselves and explore possible careers in order to narrow down their options and make informed major and career decisions.

INTR 203 (s) Workshop (1-16 credits)
Credit arranged

INTR 204 (s) Special Topics (1-16 credits)
Credit arranged

INTR 210 College Success Strategies for Student-Athletes (2 credits)
College Success Strategies for Student-Athletes is a comprehensive course that integrates personal growth, academic study strategies, along with critical and creative thinking. Emphasis is on the attainment of lifelong success in academic, professional, and personal development. Typically Offered: Fall/Spring.

INTR 240 Scholarly Communication (1 credit)
This course teaches students how to present their research and scholarly work in written and oral forms, including how to approach a senior or honors thesis, how to prepare abstracts for scholarly conference submissions, how to create conference poster and panel presentations, how to prepare manuscripts for peer review, and how to write a winning grant proposal. This course teaches valuable insights about how to communicate research.

INTR 298 (s) Internship (1-16 credits)
Credit arranged

INTR 299 (s) Directed Study (1-16 credits)
Credit arranged

INTR 350 (s) Reading with Purpose (1-3 credits, max 6)
Designed to encourage students to read a text that has interdisciplinary implications. The texts are chosen from books adopted as Common Reads across the U. S. or other texts that can be explored from an interdisciplinary lens. The course will involve reading, journals, quizzes, and a paper all with the primary aim of providing students an opportunity to consider their connections to the text and how the text speaks to their unique intersection of disciplines or identities. Typically Offered: Varies.
INTR 455 Producing The Looking Glass (1 credit)
This course offers students in the University Honors Program an opportunity to learn how to produce the program's student publication, "The Looking Glass." The one-credit course includes developing or reviewing criteria for submissions, sending out calls for submissions from honors students, hosting submission sessions, reviewing submissions, editing submissions, and editing and publishing the final product, the annual publication "The Looking Glass."

INTR 489 Honors Program Ambassadors (1 credit, max 8)
Student Ambassadors are selected through an application and interview process. Students will learn leadership, communication, networking and public speaking skills. Students will meet in the classroom with the instructor and will be responsible for representing the University Honors Program at various on- and off-campus events and activities.

INTR 491 College of Letters, Arts, and Social Sciences Ambassadors (1-16 credits)
Credit arranged. Student ambassadors are selected through an application and interview process. Students will learn skills in leadership, communication, networking and public speaking. Students will be responsible for representing the College of Letters, Arts and Social Sciences in various recruiting activities and events.

INTR 492 College of Science Ambassadors (1 credit, max 8)
Student ambassadors are selected through an application and interview process. Students will learn skills in leadership, communication, networking and public speaking. Students will be responsible for representing the College of Science in various recruiting activities and events.

Prereqs: Permission

INTR 496 Pre-Health Peer Mentors (1 credit, max 4)
Pre-health peer mentors are selected through an application and interview process. The mentor program will help promote a welcoming and supportive community for pre-health-professions-focused students new to the University of Idaho, while providing mentors the opportunity to further develop the inter- and intra-personal competencies expected of future healthcare professionals. These competencies include collaboration, communication, service orientation, and ethical responsibility to self and others.

INTR 498 (s) Internship (1-16 credits)
Tutorial services performed by advanced students under faculty supervision.

Prereqs: Permission.

Joint-listed with INTR 405

Credit arranged

INTR 508 Teaching and Learning Strategies for International Teaching Assistants (1 credit)
This course is designed to help International Teaching Assistants become better teachers and facilitators of student learning. The course will include mentoring through classroom teaching and observation sessions. Graded Pass/Fail.

INTR 509 Introduction to Applied Data Science (3 credits)
Data science is a growing field of study that impacts nearly every aspect of our daily lives. While many data science courses focus on software engineering and predictive analytics, the purpose of this course is to provide students with a strong foundation of data-related skills. This course is a broad introduction into the field of data science, focusing on growing the students' conceptual understanding of data and data science while also providing them with a practical data-oriented skill set that will translate into most scientific careers. Typically Offered: Fall and Summer.

INTR 598 (s) Internship (1-16 credits)
Credit arranged

INTR 599 (s) Non-thesis Master's Research (1-16 credits)
Credit arranged. Research not directly related to a thesis or dissertation.

Prereqs: Permission
