

SOCIOLOGY (SOC)

SOC 1101 Introduction to Sociology (3 credits)

General Education: Social and Behavioral Ways of Knowing
Basic theories, concepts, and processes involved in scientific study of society; includes socialization process, social inequality, the family, religion, deviance, population, the environment, and social change.
Typically Offered: Every semester.

SOC 2000 (s) Seminar (1-16 credits, max 99)

Credit arranged

SOC 2010 Introduction to Inequity and Justice (3 credits)

General Education: American Experience
An interdisciplinary and historical study of social inequities and inclusion in a cross-cultural global context. The course examines multiple forms of diversity and stratification including, but not limited to, culture, class, race/ethnic, gender/sexuality, religious diversity, and political ideology in an effort to raise students' ability to interact with and understand others in our increasingly multicultural world. Courses may vary in their emphasis on United States' or international experiences. May include service learning. Typically Offered: Fall, Spring and Varies.

Prereqs: SOC 1101

SOC 2030 (s) Workshop (1-16 credits, max 99)

Credit arranged

SOC 2040 (s) Special Topics (1-16 credits, max 99)

Credit arranged

SOC 2110 Development of Social Theory (3 credits)

Development of social theory from classical roots through contemporary schools; biographical accounts and original works in sociological theory.
Typically Offered: Varies.

Prereqs: SOC 1101

SOC 2300 Social Problems (3 credits)

Contemporary social issues and personal deviations; crime and delinquency, poverty and wealth, drugs, sexual variations, racism, sexism, and the environment. Typically Offered: Varies.

SOC 2990 (s) Directed Study (1-16 credits, max 99)

Credit arranged

SOC 3090 Social Science Research Methods (3 credits)

This course introduces students to quantitative and qualitative research methods employed in the social sciences. It will discuss research design and ethics, data collection processes, and data analysis. Typically Offered: Fall and Spring.

Prereqs: STAT 1530 or STAT 2510; Junior or Senior Standing; SOC, ANTH, CRIM majors or SOC minors only

SOC 3270 Sociology of the Family (3 credits)

This class is designed to help students critically evaluate and understand the ways they think about families and the role of the families. In this course we will examine families as social institutions that vary across time and culture, the ways that families shape and are constrained by structural conditions, and the interactions between the family and other social institutions.

Prereqs: SOC 1101

SOC 3400 Environmental Sociology and Globalization (3 credits)

This course introduces students to sociological perspectives of environment, demonstrating the importance of connecting questions of environmental concern to global processes. The underlying premise of the course is that sustainable futures – social, economic, and ecological – cannot be solved without comprehending the global connections between our personal lives and the systemic forces shaping national and international practices. Area emphasis within the study of environmental sociology and globalization will vary depending on instructor. Typically Offered: Fall.

SOC 3410 Science, Technology, and Society (3 credits)

This course situates science and technology in the social context. The course draws from Sociology of Science and Science and Technology Studies to examine the nature of scientific expertise, processes of knowledge creation, interrelationship between science and technology, impacts of science and technology on society, and science policy. Students will develop the ability to ask important questions about how the human world affects science and technology, and how science and technology affects the human world.

SOC 3460 Responding to Risk (3 credits)

This course uses risk as a paradigm for a sociological analysis of agency and structure. Students are introduced to various theories and frameworks for modeling risk. The course investigates risk in individual and group behavior, decision making in situations of risk, and risk in the workings of social institutions and social practices, within the areas of crime and deviance, science and technology, health, and the environment.

Prereqs: SOC 1101 or Instructor Permission

SOC 3500 Food, Culture, and Society (3 credits)

General Education: American Experience, Social and Behavioral Ways of Knowing

Cross-listed with ANTH 3500

Examines the structural and cultural implications of eating and producing food in a global world. Utilizing a social scientific framework, it explores the history of particular foods and examines how food systems are racialized, classed and gendered. Primary foci include the social history of food holidays and taboos, the relationships between food and identity, the impact of agricultural production practices on food systems and food security, and forms of resistance to these impacts. Recommended Preparation: a 2000-level sociology course. May include field trips.

Typically Offered: Spring (Even Years).

Prereqs: SOC 1101

SOC 3510 Animals in Society (3 credits)

General Education: Social and Behavioral Ways of Knowing

This course examines the relationships between human and more-than-human animal species in society to explore interactions, interdependence, meaning making, and policies over time and place. Typically Offered: Varies.

SOC 3720 Love and Liberation (3 credits)

The word "love" is considered important yet stubbornly difficult to experience in contemporary society. But what exactly does love mean? We examine the sociology of love, emotion, and social reproduction to review the various meanings of love that have evolved in different societies over time and across the world. As we investigate the social and global history of love, we will also consider the possibility that love is a radical political and economic principle. In fact, perhaps love has been the fundamental goal that gives life to liberation movements and revolutions. Typically Offered: Spring (Even Years).

SOC 4000 (s) Seminar (1-16 credits, max 99)

Credit arranged

Prereqs: SOC 1101**SOC 4030 (s) Workshop (1-16 credits, max 99)**

Credit arranged

Prereqs: SOC 1101**SOC 4040 (s) Special Topics (1-16 credits, max 99)**

Credit arranged

Prereqs: SOC 1101**SOC 4160 Qualitative Social Science Methods (3 credits)**

Cross-listed with ANTH 4160

Joint-listed with ANTH 5160

This course introduces students to social science research methods that collect qualitative data. It will discuss research design and ethics, data collection processes, and data analysis. Additional work required for graduate credit. Typically Offered: Varies.

Prereqs: SOC 1101 or ANTH 1000**SOC 4170 Social Data Analysis (3 credits)**

Cross-listed with ANTH 4170

Joint-listed with ANTH 5170

This course introduces students to social science research methods that collect quantitative data. It will discuss research design and ethics, data collection processes, and data analysis. Additional work required for graduate credit.

Prereqs: SOC 1101; STAT 2510**SOC 4200 Sociology of Law (3 credits)**

The course examines law creation and law enforcement in their social, political, and economic context. Discussions include the major theories of the role of law and functioning of the modern state, and through the use of historical and contemporary case studies students will evaluate the strengths and weaknesses of these theoretical perspectives.

SOC 4230 Economic (In)Justice (3 credits)

This course investigates how different institutions create and maintain conditions of economic inequality and injustice. Various angles of inquiry include the unequal distribution of wealth among different social groups, international comparisons, the rising power of financial institutions, the prevalence of housing insecurity, the causes and consequences of consumer indebtedness and bankruptcy, and unequal community development. Angles of inquiry emphasized in the course may vary. Typically Offered: Fall (Odd Years).

Prereqs: SOC 1101 or Instructor Permission**SOC 4240 Sociology of Gender (3 credits)**

Historical and comparative analysis of the various roles, statuses, and life opportunities of men and women; emphasis on how gender roles develop in society and their effect on social structure, social institutions, and interpersonal interaction.

Prereqs: SOC 1101 and a 3 credit lower-division SOC course**SOC 4260 Sociology of Sports (3 credits)**

A sociological analysis of the impact of sports on our society. This course provides students with the theoretical basis to critically examine the sociological issues found within sports. The role of money, politics, race, gender, and commercialization will be given special consideration. Typically Offered: Spring (Odd Years).

Prereqs: SOC 1101**SOC 4270 Racial and Ethnic Relations (3 credits)**

Examination of the social construction of racial categories and meanings; theories of race relations; historical and contemporary experiences of racial/ethnic groups in the U. S. ; contemporary issues and debates. Typically Offered: Fall.

Prereqs: SOC 1101 and SOC 2010**SOC 4310 The Golden Years: Aging in America (3 credits)**

The class will cover the U. S. history and demographics of aging, the theories of aging, and the ways in which social institutions (government, gender, healthcare, media, economy, and so on) affect our experiences of aging. The class will also cover how aging is affected by social class, sexuality, and race and ethnicity, as well as the ethics of end-of-life choices. Typically Offered: Spring.

Prereqs: SOC 1101**SOC 4330 Understanding Communities (3 credits)**

Examines the growth of communities, including cities and small towns; community inequalities, politics, and social movements; built environment, ecology, and sustainability of cities and identity; global cities and immigration. Explores what it takes to practice community citizenship development, and how sociologists may enhance and build community in ways that promote fair and just distribution of resources and equitable living conditions. Typically Offered: Fall.

Prereqs: SOC 1101 or Instructor Permission.**SOC 4430 Power, Politics, and Society (3 credits)**

Examines the relationship between political and social institutions, the distribution of power and authority in society, the origins and expansion of the modern state, social and cultural basis of political behavior, and characteristics of transnational and global governance. Typically Offered: Fall (Odd Years).

Prereqs: SOC 1101 or Instructor Permission**SOC 4440 Health, Illness, and Society (3 credits)**

Cross-listed with ANTH 4440

Joint-listed with ANTH 5440

This course examines the various cultural events, biological processes, and socio-structural forces that contribute to health and disease of modern populations. Taking a holistic perspective, the course examines how communicable and genetic pathological conditions originate, how they have been handled throughout history and the lengths to which science, medicine, and other social institutions go to keep us healthy. The course also investigates how we perceive health and explores how various issues, such as genetics, social inequality, culture, and ideology influence how we promote well-being and care for the sick. Additional projects/assignments required for graduate credit. Typically Offered: Spring.

SOC 4450 Extremism and American Society (3 credits)

This course explores sociological perspectives on extremism in American society. We will consider the socio-structural factors that contribute to a rise in extremist activism, that motivate people to join these organizations, and that provide political opportunity for organizational growth. The class will also explore the historical and contemporary circulation of extremist discourse and ideology in more mainstream spaces. Finally, the course will examine the impact these organizations have on broader society: culture, ideology, political discourse, etc. To accomplish this, the course will focus on case studies of past and current reactionary groups, including hate groups (KKK, neo- Nazi), militia and patriot groups (Posse Comitatus), terrorist groups, and other examples of extremism. Typically Offered: Varies.

Prereqs: SOC 1101 or Instructor Permission

SOC 4600 Capstone: Sociology in Action (3 credits)

General Education: Capstone Experience

Sociology in Action is designed to provide the resources and guidance necessary for sociology seniors to complete an independent or collaborative research project.

Prereqs: SOC 1101 and Senior standing and major in Department of Sociology and Anthropology; or Permission

SOC 4620 Senior Practicum (3 credits)

General Education: Capstone Experience

This course will involve an applied, on-site experience with an organization or group. The applied experience will be the basis for a thesis that will analyze the applied experience by incorporating theory, methods and knowledge gained from previously-taken sociology classes. In addition, the practicum will include class meetings covering topics related to the applied experience and career paths for majors in Sociology. Typically Offered: Varies.

Prereqs: SOC 1101

SOC 4650 Environmental Justice (3 credits)

This course surveys the history of environmental justice in the United States and globally, and it explores the different sociological perspectives surrounding environmental justice cases and movements. Courses will allow opportunities to explore the social, political, and economic philosophies and policies that inform definitions of "justice" and "fairness", with an emphasis on sustainability at local, national, and international levels. Typically Offered: Spring (Odd Years).

Prereqs: SOC 1101

SOC 4660 Climate Change and Society (3 credits)

This course introduces students to social, economic, political, and cultural dimensions of climate change. It considers the global nature of climate change, its causes and effects, and key issues related to climate change communication, adaptation, and mitigation. Upon completion of the course, students will be able to identify several key sociological issues related to climate change (e. g. , human impact on climate change, institutional and political responses, public opinions and skepticism, impact on marginalized communities, challenges to communication, role of emotions in climate change, potential avenues for mitigating negative effects).

Prereqs: SOC 1101

SOC 4980 (s) Internship (1-6 credits, max 99)

Supervised professional field experience in human service organizations. Graded Pass/Fail.

Prereqs: SOC 1101, major in Department of Sociology and Anthropology, and Permission

SOC 4990 (s) Directed Study (1-16 credits, max 99)

Intended to accommodate a wide variety of sociological topics.

Prereqs: SOC 1101 and Permission

SOC 5010 (s) Seminar (1-16 credits, max 99)

Subjects normally offered: sociological research, social problems, and social theory.

Prereqs: Permission

SOC 5020 (s) Directed Study (1-16 credits, max 99)

Subjects normally offered: sociological theory, human ecology, and race relations.

Prereqs: Permission

SOC 5040 (s) Special Topics (1-16 credits, max 99)

Credit arranged

SOC 5990 (s) Non-thesis Master's Research (1-16 credits, max 99)

Credit arranged
