

STATISTICS ASSISTANCE CENTER

The Statistics Assistance Center (SAC) is located inside the Mathematics Assistance Center (MAC) on the ground floor of Brink Hall, across from the ISUB food court. www.uidaho.edu/sci/stat/about/sac (<https://www.uidaho.edu/sci/stat/about/sac/>)

The Statistics Assistance Center (SAC) was developed to give assistance to students taking their first or second statistics courses. Graduate statistics students and some undergraduate statistics majors in the SAC provide help for students enrolled in STAT 1530, STAT 2510, STAT 3010, and STAT 4310. The staff works to provide a friendly, non-threatening environment where students will feel comfortable to work, ask questions, learn statistics outside of class, and obtain assistance with some software programs.

The SAC is generally open for statistics tutoring Monday through Friday. Statistics tutoring hours vary each semester, so please see the SAC web page for current tutoring availability (<https://www.uidaho.edu/sci/mathstat/centers/sac/tutoring-schedule> (<https://www.uidaho.edu/sci/mathstat/centers/sac/tutoring-schedule/>)). Students can visit on a drop-in basis during scheduled times for help. Email stats-sac@uidaho.edu with questions.
