

A - MATRICULATION

Applicants for enrollment in any course offered by U of I for college credit, except correspondence study, submit personal data and credentials covering all previous academic work (see "Admission to the University (<https://catalog.uidaho.edu/student-services/admission/>)"). After U of I has received these credentials and approved the application, registration access is given to the applicant, and the applicant's first registration at U of I concludes the matriculation process.
